PROFILE

Fong Bunsong, a dedicated technology enthusiast with a passion for full-stack development and mobile applications. Committed to creating innovative and efficient IT solutions, I continuously expand my skills in emerging technologies to build seamless, user-focused applications and keen to learn about UI/UX through Figma technology . With a collaborative mindset, I aim to contribute to impactful projects while continually learning and improving in the tech field.

WORK EXPERIENCE

Camcyber Digital Tech Team   2024-2025
Position : Learner & Intern

- Gained hands-on experience in full-stack development, including understanding CRUD operations and how they apply to web applications.
- Work on developing an application for the AMT association to efficiently record and manage scholarship student information.

9th NICC Startup Camp   2023
Position : Participant

- Be able to get the basic understanding of technology and creating business as a young entrepreneur.
- Learned how to link ICT fields (AI, Big data, Blockchain) to create a startup.
- Improved Entrepreneur and Critical Thinking Skills as well as expanding IT knowledge and passion.

AMT Scholarship Association
Position : Co-Leader   2022 - 2024

- Represent AMT scholarship holders at AUPP, ensuring their concerns and needs are communicated effectively to the association.
- Organize trips, volunteer opportunities, host events, scholarship registrations, manage AMT Social Media Platforms & system testing.
